Representing Voters From:
Lambertville, MI

WHY YOUR PARTICIPATION IN THIS SURVEY IS IMPORTANT:

Dear Mr. Maloney,

Please take a few minutes to complete this important survey. This survey has two main goals:

1) **Demonstrate to America's political leaders – including Members of Congress, President Obama, and top officials at the U.S. Department of Education –** that Americans want schools and colleges that support liberty and the moral and religious principles that made America great, rather than schools and colleges that undermine these principles.

The media, teachers, professors, clergy, religious leaders, and other shapers of public opinion will also surely be interested in the results of such a large survey on what Americans expect and want from a college education for their children and grandchildren.

2) **Show leaders of America's colleges what most Americans want and expect from a college education.**

We believe Hillsdale has been so successful because Hillsdale is delivering a world-class education that supports the moral beliefs taught in most American homes and supports the founding principles that made America great.

THE RESULT: The number of student applications for admission to Hillsdale is increasing every year, while applications for admission are plummeting at many other colleges and universities.

This survey aims to show the leadership of America's colleges they would do well to offer what the American people want from a college education.

Once you finish this survey, please also be sure to complete the Contribution Section on the back of this form. Thank you so much for spending a few minutes with this important survey.

Sincerely,

Sean Hannity
